### Research on Transparency Trends in Sustainability and Responsible Sourcing

#### **About amfori:**

As the leading global business association for open and sustainable trade, we bring together over 2,000 retailers, importers, brands and associations from more than 40 countries. Our membership contains organisations of all sizes and all sectors with a combined turnover of more than one trillion euros. Our mission is to enable each of our members to enhance human prosperity, use natural resources responsibly and drive open trade globally.

#### **Purpose of research:**

The research will serve as input to the strategy and innovation plan of amfori.

#### **Topics to be included in the research:**

- Existing approaches and future trends of transparency – in the sustainability and responsible sourcing space specifically
  - Industry, regulatory, NGO, consumer trends should be taken into account
  - Global scope
  - Best practice examples from other non-profit organisations with regards to organisational transparency
- Overall stakeholder mapping for amfori – including potential partnerships with regards to transparency
- Any relevant legal restrictions with regards to supply chain transparency
- Overview of main challenges/concerns from the corporate sector with regards to increased transparency, specifically of the supply chain
