In pursuance of subparagraph "a" of paragraph 1 of the Decree of the President of the Russian Federation dated March 8, 2022 No. 100 "On the application in order to ensure security of the Russian Federation special economic measures in sphere of foreign economic activity“ Government of the Russian The federation decides:

1. Introduce an export ban until December 31, 2022 inclusive outside the territory of the Russian Federation of goods according to the list according to the application.

2. The measure provided for in paragraph 1 of this decision, does not apply: for goods originating from the territory of the Russian Federation, accompanied by a certificate of origin in the form ST-1;
   • on goods exported to the member states of the Eurasian economic union, the Republic of Abkhazia and the Republic of South Ossetia;
   • for goods exported from the territory of the Russian Federation under international transit traffic starting and ending outside the territory of the Russian Federation;
   • on goods transported between parts of the territory of the Russian Federations through the territories of foreign states;
   • on goods exported from the territory of the Russian Federation for the purpose of ensuring the activities of military formations of the Russian Federations located on the territories of foreign states;
   • for goods exported under licenses of the Federal Service on technical and export control, on licenses and lists Federal Service for Military-Technical Cooperation, according to the lists approved by the Ministry of Defence of the Russian Federations;
   • on goods (regardless of their origin) exported to the Donetsk People's Republic and the Lugansk People's Republic;
   • for goods exported from the Russian Federation in order to complete customs procedures for processing in the customs territory, if such goods before being placed under the customs procedure for processing on customs territory were not placed under other customs procedures (except for the customs procedure of customs transit and customs warehouse procedures);
   • for goods originating from the member states of the Eurasian economic union placed in the member states of the Eurasian economic union under customs procedures providing for
   • export from the customs territory of the Eurasian Economic Union;
   • on goods exported from the territory of the Russian Federation for the purpose of ensuring the activities of organizations of the Russian Federation on the Svalbard archipelago;
   • on vehicles of international transportation;
   • on goods exported by individuals for personal use.

3. Federal customs service to ensure control for the implementation of the provisions of paragraph 1 of this resolution.

4. To the Ministry of Internal Affairs of the Russian Federation, Border Service of the Federal Security Service of the Russian Federation and the Federal Service of the National Guard Troops the Russian Federation to provide within its competence assistance to the Federal Customs Service in carrying out appropriate control measures.

5. Federal executive authorities with participation associations of manufacturers to develop and implement complex activities aimed at increasing the supply of products in order to prevent price increases.

6. This Resolution shall enter into force on the day of its official publication.
Certain types of goods, subject to a temporary export ban*

Ch. 84

8401 Nuclear reactors; fuel elements (fuel rods), non-irradiated, for nuclear reactors; equipment and isotope separation devices
8402 Steam boilers or other steam generating boilers (except water boilers for central heating, also able to produce low pressure steam); superheated water boilers
8403 Boilers for central heating, other than commercial boilers items
8404 Accessories for use with boilers of heading 8402 or 8403 (for example, economizers, superheaters, soot removers, gas recuperators); condensers for steam or other steam power plants
8405 Gas generators or water gas generators with cleaning plants or without them; acetylene and similar gas generators gas generators with or without purification plants them
8406 Steam turbines and other steam turbines
8407 Spark ignition internal combustion engines, with rotating or reciprocating piston movement
8408 Reciprocating internal combustion engines with compression ignition (diesels or semi-diesels)
8409 Parts intended solely or principally as for engines of heading 8407 or 8408
8410 Hydraulic turbines, water wheels and regulators to them
8411 Turbojet and turboprop engines, gas other turbines
8412 Other engines and power plants
8413 Pumps for liquids, with or without flow meters; liquid lifters
8414 Air or vacuum pumps, air or gas compressors and fans; ventilation or recirculating fume hoods or cabinets with fan, with or without filters; gas-tight biological safety cabinets with or without filters
8415 Air conditioning units, equipped with a fan with a motor and instruments to change the temperature and humidity of the air, including air conditioners where humidity cannot regulated separately
8416 Furnace burners for liquid fuel, atomized solid fuel or for gas; mechanical furnaces, including their mechanical grates, mechanical ash removers and similar devices
8417 Industrial or laboratory furnaces and furnaces, including incinerators, non-electric
8418 Refrigerators, freezers and other refrigerating or freezing equipment, electric or other types; heat pumps, except for installations for air conditioning of heading 8415
8419 Machinery, industrial or laboratory equipment with electric or non-electric heating (excluding ovens, chambers and other commercial equipment) 8514) for processing materials in a process with temperature changes such as heating, boiling, roasting, distillation, rectification, sterilization, pasteurization, steaming, drying, evaporation, condensing or cooling, except for machines and equipment used for domestic purposes; flow or storage water heaters (capacitive), non-electric
8420 Calenders or other rolling machines, other than machines for metal or glass working and rolls therefor
8421 Centrifuges, including centrifugal dryers; equipment and devices for filtering or purifying liquids or gases
8422 Dishwashing machines; washing equipment or drying bottles or other containers; equipment for filling, capping bottles, cans, closing boxes, bags or other containers, for sealing them or labelling; hermetic equipment caps or caps for bottles, jars, tubes and similar containers; packing equipment or wrappers (including equipment wrapping goods with heat shrink packaging material) other; beverage carbonation equipment
8423 Weighing equipment (other than scales sensitivity of 0.05 g or better), including counters or control machines powered by force weight of the weighed cargo; weights for all scales types
8424 Mechanical devices (with or without manual control) him) for throwing, spraying or spraying liquids or powders; fire extinguishers loaded or uncharged; atomizers and similar devices; steam or sand blasting and similar throwing devices
8425 Hoists and hoists other than skips lifts; winches and capstans; jacks
8426 Ship derrick cranes; cranes, including cable cranes; lifting trusses, loaders portal and trolleys equipped with a crane
8427 Fork lift trucks; other carts, equipped with a lifting or handling equipment
8428 Machinery and apparatus for lifting, moving, loading or unloading (e.g. elevators, escalators, conveyors, ropeways) other
8429 Bulldozers with a fixed or rotary blade, graders, planners, scrapers, mechanical shovels, excavators, shovel loaders, rammers and road rollers, self-propelled
8430 Other machines and mechanisms for moving, planning, profiling, development, ramming, compaction, excavation or drilling of soil, useful minerals or ores; driving equipment and pile extraction; plough and rotary snow ploughs
8431 Parts exclusively or primarily for equipment headings 8425 - 8430
8432 Agricultural, horticultural or forestry for soil preparation and cultivation; lawn or sports field rollers
8433 Harvesting or threshing machinery crops, including balers, straw balers or hay; mowers or lawn mowers; machines for cleaning, sorting or grading eggs, fruit or other agricultural products other than machinery heading 8437
8434 Milking plants and apparatus, milking equipment milk processing and processing
8435 Presses, crushers and similar machinery for winemaking, cider, fruit juice or similar drinks
8436 Equipment for agriculture, horticulture, forestry, poultry or beekeeping, including equipment for germinating seeds with mechanical or heating devices, other; poultry incubators and brooders
8437 Machinery for cleaning, sorting or grading seed, grains or dry legumes; equipment for flour milling industry or processing cereals or dried leguminous vegetables, other than equipment used in agricultural farms
8438 Equipment for industrial preparation or production of foodstuffs or beverages, in another place of this group is not named or not included, except for extraction equipment or cooking animal fats or oils origin or non-volatile fats or oils vegetable or microbiological origin
8439 Equipment for the production of pulp from fibrous cellulosic materials or for the manufacture or finishing paper or cardboard
8440 Binding machinery, including machines for book block stitching
8441 Equipment for the production of paper products pulp, paper or paperboard, including cutters all types, other
8442 Machinery, apparatus and fittings (except equipment headings 8456 to 8465) for the preparation or manufacture of plates, cylinders or other printed forms; plates, cylinders and other printing forms; plates, cylinders and lithographic stones, prepared for printing purposes (for example, turned, ground or polished)
8443 Printing machines used for printing by plates, cylinders and other printed forms of commodity items 8442; other printers, copiers and facsimile machines combined or uncombined; their parts and accessories
8444 00 Machines for extruding, drawing, texturing or cutting chemical textile materials
8445 Machines for preparing textile fibres; spinning, cane or twisting machines and other equipment for the manufacture of textile yarn; cocoon winding or winding (including weft-winding) textile machines and machines, preparing textile yarn for use it on machines of heading 8446 or 8447
8446 Looms
Knitting machines, knitting and stitching, for gimp, tulle, lace, embroidery, braid or net weaving and tufting machines

Ancillary equipment for use with machines of heading 8444, 8445, 8446 or 8447 (e.g. dobbies, jacquard machines, automatic stop mechanisms, shuttle shifts); parts And Accessories, intended solely or primarily for machines of this heading or heading 8444, 8445, 8446 or 8447 (for example, spindles and flyers, needle headset, combs, dies, shuttles, healds and heald frames, knitting needles)

Machinery for making or finishing felt or felt or non-woven fabrics in the piece or cut, including equipment for the production of felt hats; blocks for making hats

Washing machines, household or laundry, including machines equipped with wringer

Equipment (other than machines of heading 8450) for washing, cleaning, wringing, drying, ironing, pressing (including heat setting presses), bleaching, dyeing, dressing, finishing, applying coating or impregnation of textile yarns, textile materials or finished textiles and machinery for applying paste to a woven or other substrate, used in the manufacture of floor coverings such as like linoleum; machines for winding, unwinding, folding, cutting or piercing textile materials

Sewing machines, other than bookbinding machines blocks of heading 8440; furniture, bases and cases designed specifically for sewing machines; sewing machine needles

Converters, ladies, moulds and machines foundries used in metallurgy or foundry production

Rolling mills and rolls therefor

Machine tools for working all materials by removing material using laser or other light or photon beam, ultrasonic, electric discharge, electrochemical, electron beam, ion beam or plasma-arc processes; water jet cutting machines

Machining centres, machine tools single-station and multi-station, for processing metal

Lathes (including lathes multi-purpose) metal-cutting

Metal-cutting machine tools (including modular machine tools linear construction) for drilling, boring, milling, cutting external or internal threads by removing metal, except for turning machine tools (including lathes) heading 8458

Peeling and grinding machines, sharpening, grinding, honing, lapping, polishing and for other operations finishing of metals or cermets using grinding stones, abrasives or polishing agents, other than gear cutters, gear grinding or gear finishing machines

Longitudinal planers, cross planers, slotting, broaching, gear cutting, gear grinding or gear-finishing, sawing, cutting and other machines for working metals or cermets by removing material, not elsewhere named or not included

Machine tools (including presses) for working metals die forging, forging or stamping (other than rolling mills); metal processing machines (including presses, slitting lines and transverse cutting) bending, edge bending, straightening, cutting, punching, punching or punching (except for drawing machines); presses for working of metals or metal carbides, not named above

Machine tools for working metals or cermets, not material removal other

Machine tools for working stone, ceramics, concrete, asbestos cement or similar mineral materials or for cold working glass

Machine tools (including machines for assembling with nails, staples, glue or other means) for woodworking, cork, bone, hard rubber, hard plastics or similar hard materials

Parts and accessories intended exclusively or mainly for equipment headings 8456 to 8465, including fittings for fixing tools or parts, self-opening die heads, dividing heads and
other special accessories for equipment; fixtures for fastening of working tools for all types of manual tools

8467 Pneumatic, hydraulic hand tools or with built-in electric or non-electric engine

8468 Brazing equipment and apparatus, brazing or welding, suitable or not suitable for cutting, other than machines and apparatus heading 8515; machines and devices for surface heat treatment, gas powered

8470 Calculating machines and pocket recorders, playback and visual presentation of data with computing functions; accounting machines, postal marking machines, ticket machines and other similar machines with counting devices; cash registers

8471 Computers and their units; magnetic or optical readers, machines for transferring data to storage media in coded form and machines for processing similar information not elsewhere specified or included

8472 Office equipment (e.g. hectographic or stencil duplicators, machines addressing, automatic dispensing devices banknotes, machines for sorting, counting or packaging coins, pencil sharpeners, perforating or stapling machines staples) other

8473 Parts and accessories (except cases, covers for transportation and similar products), intended solely or primarily for machines of headings 8470 - 8472

8474 Equipment for sorting, screening, separation, washing, grinding, mixing or mixing soil, stone, ores or other minerals in solid (including powder or paste) state; equipment for agglomeration, moulding or casting solid mineral fuels, ceramic compositions, uncured cement, gypsum materials or other mineral products in powdered or pasty state; moulding machines for making sand moulds

8475 Electrical or electronic assembly machines lamps, tubes or cathode ray tubes or gas-discharge lamps in glass flasks; machines for manufacture or hot working of glass or products from glass

8476 Vending machines (e.g. for selling postal brands, cigarettes, food products or beverages), including vending machines for banknotes and coins

8477 Machinery for working rubber or plastics or for the production of products from these materials, in another place of this group is not named or not included

8478 Equipment for the preparation or preparation of tobacco, elsewhere in this group, not named or included

8479 Machinery and mechanical devices having individual functions, elsewhere in this group not named or included

8480 Moulds for foundries; foundry pallets; foundry models; metal casting moulds (except moulds), metal carbides, glass, mineral materials, rubber or plastics

8481 Taps, valves, faucets and similar fittings for pipelines, boilers, reservoirs, cisterns, tanks or similar containers, including reducing and thermostatic valves

8482 Ball or roller bearings

8483 Transmission shafts (including cam and cranked) and cranks; bearing housings and plain bearings for shafts; gears and gears transfers; ball or roller screws; gearboxes and other speed variators, including torque converters; flywheels and pulleys, including blocks pulleys; couplings and devices for connecting shafts (including universal joints)

8484 Gaskets and similar fittings of sheet metal in combination with other material or consisting of two or more layers of metal; sets or sets of gaskets and similar connecting elements, different in composition, packed in bags, envelopes or similar packaging; mechanical seals

8485 Additive manufacturing machines

8486 Machinery and apparatus used exclusively or mainly for the production of semiconductor boules or plates, semiconductor devices, electronic integrated circuits or flat panel displays panels; machines and apparatus named in note 11(B) to this chapter; parts and accessories
Parts of equipment not fitted with electrical connections, insulators, contacts, coils or other electrical parts, not elsewhere in this Chapter named or not included

Ch. 85

8501 Electric motors and generators (other than generating sets)
8502 Electric generating sets and rotating electrical converters
8503 00 Parts exclusively or primarily for machines of heading 8501 or 8502
8504 Electric transformers, static electrical converters (e.g. rectifiers), inductors and chokes
8505 Electromagnets; permanent magnets and products, designed to be converted into permanent magnets after magnetization; electromagnetic or with permanent magnet chucks, grippers and similar fixing devices; electromagnetic clutches, clutches and brakes; electromagnetic lifting heads
8506 Primary cells and primary batteries
8507 Electric accumulators, including separators for them, rectangular (including square) or other forms
8508 Vacuum cleaners
8509 Household electromechanical machines with built-in electric motor, other than vacuum cleaners of heading 8508
8510 Shavers, hair clippers and hair removal devices with built-in electric motor
8511 Ignition or starting electrical equipment internal combustion engines with spark ignition or compression ignition (e.g. magneto, ignition coils, spark plugs, glow plugs, starters); generators (for example, constant or AC) and breakers of the type used with these engines
8512 Electrical lighting or signalling (except for products of heading 8539), windshield wipers, defrosters and defoggers used on bicycles or motor vehicles
8513 Portable electric lamps powered by own energy source (e.g. dry batteries) cells, accumulators, magnetos), except lighting equipment of heading 8512
8514 Industrial or laboratory ovens and chambers electrical (including those operating on the basis of the phenomenon induction or dielectric losses); industrial or laboratory equipment for thermal processing materials using the phenomenon of induction or dielectric losses
8515 Machinery and apparatus for electrical (including electric gas heating), laser or other light or photon, ultrasonic, electron beam, magnetic-pulse or plasma-arc low temperature soldering, high temperature soldering or welding, regardless of whether they can perform cutting operations or not; machines and devices electric for hot spraying of metals or cermets
8516 Instantaneous electric water heaters or storage (capacitive) and electric heaters submersible; space heating electrical equipment and ground heating, electrothermal devices for hair care products (e.g. hair dryers, curlers, hot curling irons) and hand dryers; electric irons; other household electrical heating appliances; electrical heating resistors, other than those mentioned in heading 8545
8517 Telephone sets, including smartphones and other telephone sets for cellular communication networks or other wireless communication networks; other equipment for transmitting or receiving voice, images or other data, including network communication equipment wired or wireless communication (for example, in local or global communication network), except for the transmitting or receiving apparatus of heading 8443, 8525, 8527 or 8528
8518 Microphones and stands therefor; loudspeakers, mounted or not mounted in housings; headphones and telephones headphone, combined or not combined with a microphone,
and kits consisting from a microphone and one or more speakers; electric amplifiers of sound frequency; electric sound amplification kits

8519 Sound recording apparatus or sound-reproducing

8521 Video recording apparatus or video playback, combined or not combined with video tuner

8522 Parts and accessories suitable for use exclusively or mainly with commercial equipment positions 8519 or 8521

8523 Disks, tapes, solid state non-volatile storage devices, "intelligent cards" and other media for recording sound or other phenomena, recorded or unrecorded, including matrices and master disks for the manufacture of disks, except products group 37

8524 Flat panel display modules including touch screen

8525 Transmitting apparatus for radio broadcasting or television, including or not including in its composition of the reception, sound recording or sound reproducing equipment; television cameras, digital cameras and camcorders

8526 Radar, radio navigation and remote control radio equipment

8527 Radio broadcast reception apparatus, combined or not combined in one housing with sound recording or reproducing equipment or watch

8528 Monitors and projectors not including receiving television equipment; equipment reception for television communications, including or not including broadcast radio receiver or apparatus for recording or reproducing sound or image

8529 Parts designed exclusively or primarily for apparatus of headings 8524 - 8528

8530 Electrical devices for signalling, providing security or traffic control for railway roads, tram lines, highways, inland waterways, parking facilities, ports or airfields (except equipment for commercial positions 8608)

8531 Sound or visual electrical equipment signalling (for example, calls, sirens, indicator panels, signalling devices security or fire alarm devices), other than equipment of heading 8512 or 8530

8532 Electric capacitors, permanent, variable or tuning

8533 Electrical resistors (including rheostats and potentiometers), except for heating elements

8534 00 Printed diagrams

8535 Electrical apparatus for switching or protection electrical circuits or for connections to electrical circuits or in electrical circuits (e.g. circuit breakers, switches, breakers, fuses, lightning rods, limiters voltage, surge suppressors, current collectors, current collectors and other connectors, junction boxes) for voltages over 1000V

8536 Switching or protection electrical apparatus electrical circuits or for connections to electrical circuits or in electrical circuits (e.g. circuit breakers, switches, breakers, relays, fuses, surge absorbers voltage, plugs and sockets, cartridges for electric lamps and other connectors, connecting boxes) for a voltage of not more than 1000V; connectors for optical fibres, fibre optic bundles or cables

8537 Consoles, panels, consoles, tables, switchboards and other bases for electrical apparatus, equipped with two or more devices item 8535 or 8536, for control or distribution of electric current, including comprising appliances or appliances of Chapter 90 and digital control devices, except for switching devices of heading 8517

8538 Parts exclusively or primarily for apparatus of heading 8535, 8536 or 8537

8539 Incandescent or discharge lamps, electric, including hermetic directional light lamps, as well as ultraviolet or infrared lamps; arc lamps; light-emitting diode (LED) light sources

8540 Lamps and electronic tubes with thermionic cathode, cold cathode or photocathode for example, vacuum or vapor or gas-filled lamps and tubes, mercury arc rectifying lamps and tubes and cathode ray tubes, television transmission tubes)

8541 Semiconductor devices (e.g. diodes, transistors, converters based on semiconductors); photosensitive semiconductor devices, including photovoltaic cells, assembled or not
assembled in modules, mounted or not mounted in panels; light-emitting diodes (LED), assembled or not assembled with other light-emitting diodes (LED); piezoelectric crystals assemblies

8542 Electronic integrated circuits
8543 Electrical machines and apparatus having individual functions, elsewhere in this group not named or included
8544 Insulated wires (including enamelled or anodized), cables (including coaxial cables) and other insulated electrical conductors with connecting devices or without them; cables fibre optic, made up of fibres with individual shells, regardless of whether or not they are assembled with electrical conductors or connecting devices
8545 Carbon electrodes, carbon brushes, carbons for lamps or batteries and articles made of graphite or other types of carbon with or without metal, other, used in electrical engineering
8546 Electrical insulators of any material
8547 Insulating fittings for electrical machines, devices or equipment manufactured entirely of insulating materials, not counting some metal components (e.g. threaded cartridges) mounted during moulding exclusively for the purpose of assembly, other than insulators of heading 8546; electrical conduits and fittings for them, of base metal, lined insulating material
8548 00 Parts of electrical equipment or apparatus, in elsewhere in this group, not named or included
8549 Waste and scrap of electrical and electronic products

Ch. 86
8601 Railway locomotives, externally powered source of electricity, or battery
8602 Other railway locomotives; locomotive tenders
8603 Motorized railway or tram cars passenger, goods or baggage, open platforms other than those of heading 8604
8604 00 00 Self-propelled or non-self-propelled vehicles, intended for repair or technical maintenance of railway or tram tracks (e.g. workshop wagons, cranes, tamping machines, trackliners, control and measuring cars and vehicles for path inspection)
8605 00 00 Railway or tram cars, passenger non-self-propelled; baggage, postal and other wagons special railway or tram, non-self-propelled (other than those included in the heading 8604)
8606 Railway or tramway wagons, freight non-self-propelled
8607 Parts of railway or motor locomotives tramcars or rolling stock
8608 00 00 Track equipment and devices for railway or tram tracks; mechanical (including electromechanical) signalling equipment, safety or control devices traffic on railways, tramways, roads, inland waterways, parking facilities, ports or airfields; parts mentioned devices and equipment
8609 00 Containers (including containers for the transport of liquids or gases), specially designed and equipped for transportation by one or more modes of transport

Ch. 87
8701 Tractors (other than tractors of heading 8709)
8702 Motor vehicles intended for transportation of 10 people or more, including the driver
8703 Cars and other motor vehicles funds intended primarily for transportation of people (except for motor vehicles of heading 8702), including cargo and passenger vans and racing cars

Ch. 90

9001 Optical fibres and optical fibre bundles; fibre optic cables, other than those specified in heading 8544; sheets and plates polarizing material; lenses (including contact), prisms, mirrors and other optical elements, of any material, unframed, other than such elements made of optically untreated glass

9002 Lenses, prisms, mirrors and other optical elements, of any material, assembled, which are parts tools and appliances or accessories for them, except for such elements from optically unprocessed glass

9003 Frames and fittings for spectacles, goggles or similar optical instruments and parts thereof

9004 Spectacles, goggles and similar optical instruments, corrective, protective or other

9005 Binoculars, monoculars, other spotting scopes and their fittings; other astronomical instruments and their fittings other than radio astronomy instruments

9006 Photographic cameras (other than motion picture cameras); flashes and flash lamps other than gas discharge lamps items 8539

9007 Motion picture cameras and projectors, whether or not containing sound recordings or sound-reproducing devices

9008 Image projectors other than cinematographic; photographic enlargers and projection equipment reduced images (except cinematic)

9010 Apparatus and equipment for photographic laboratories (including film laboratories), elsewhere in this groups not named or included; negatoscopes; projection screens

9011 Compound optical microscopes, including microscopes for microphotography, microcinema or microprojection

9012 Microscopes other than optical microscopes; devices diffractive

9013 Lasers other than laser diodes; appliances and tools optical, other, not elsewhere in this Chapter named or not included

9014 Directional compasses; navigational other appliances and instruments

9015 Surveying appliances and instruments or topographic (including photogrammetric), hydrographic, oceanographic, hydrological, meteorological or geophysical, other than compasses; rangefinders

9016 00 Balance, 0.05 g sensitivity or better, with weights or without them

9017 Drawing, marking-out or mathematical instruments calculations (for example, drawing machines, pantographs, protractors, drawing sets, logarithmic rulers, disk calculators); hand tools for measuring linear dimensions (for example, measuring rods and tape measures, micrometres, callipers), not elsewhere in this Chapter named or not included

9018 Instruments and devices used in medicine, surgery, dentistry or veterinary medicine, including scintigraphic equipment, equipment other electromedical and research instruments vision

9019 Mechanotherapy devices; massage apparatus; equipment for psychological tests to determine abilities; equipment for ozone, oxygen and aerosol therapy, artificial respiration or other therapeutic respiratory equipment

9020 00 00 Other respiratory equipment and gas masks, except protective masks without mechanical parts and replaceable filters

9021 Orthopaedic appliances, including crutches, surgical belts and bandages; tires and others devices for the treatment of fractures; body parts artificial; hearing aids and others devices that are worn on oneself, with oneself or implanted into the body to compensate for an organ defect or its inoperability

9022 Apparatus based on use x-ray, alpha, beta, gamma or other ionizing radiation, intended or not intended for medical, surgical, dental or veterinary use, including radiographic equipment or radiotherapy, x-ray tubes and other x-ray generators, generators high
<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>9023 00</td>
<td>Instruments, apparatus and models intended for demonstration purposes (for example, in training or exposure) not suitable for another use</td>
</tr>
<tr>
<td>9024</td>
<td>Hardness testing machines and apparatus, strength, compression, elasticity or other mechanical properties of materials (e.g. metals, wood, textiles, paper, plastics)</td>
</tr>
<tr>
<td>9025</td>
<td>Hydrometers and similar instruments for immersion in liquid, thermometers, pyrometers, barometers, hygrometers and psychrometers, with recording device or without a recording device, and any combinations of these devices</td>
</tr>
<tr>
<td>9026</td>
<td>Instruments and apparatus for measuring or checking flow, level, pressure or other variables characteristics of liquids or gases (for example, flow meters, level indicators, pressure gauges, heat meters), other than appliances and apparatus of heading 9014, 9015, 9028 or 9032</td>
</tr>
<tr>
<td>9027</td>
<td>Instruments and apparatus for physical or chemical analysis (e.g. polarimeters, refractometers, spectrometers, gas or smoke analysers); appliances and apparatus for measuring or controlling viscosity, porosity, expansion, surface tension or similar; instruments and apparatus for measuring or controlling the amount of heat, sound or light (including exposure meters); microtomes</td>
</tr>
<tr>
<td>9028</td>
<td>Meters for the supply or production of gas, liquid or electricity, including calibrating</td>
</tr>
<tr>
<td>9029</td>
<td>Revolution counters, quantity counters products, taximeters, distance meters miles, pedometers and similar devices; speedometers and tachometers, except appliances and instruments of a commercial items 9014 or 9015; stroboscopes</td>
</tr>
<tr>
<td>9030</td>
<td>Oscilloscopes, spectrum analysers, other instruments and apparatus for measuring or controlling electrical quantities, except for measuring instruments of commercial positions 9028; instruments and apparatus for detecting or measurements of alpha, beta, gamma, x-ray, cosmic or other ionizing radiation</td>
</tr>
<tr>
<td>9031</td>
<td>Measuring or control instruments, devices and machines, not elsewhere in this group named or not included; projectors profile</td>
</tr>
<tr>
<td>9032</td>
<td>Instruments and apparatus for automatic regulation or control</td>
</tr>
<tr>
<td>9033 00 00</td>
<td>Parts and accessories (elsewhere in this group not named or included) to machines appliances, instruments or apparatus of Chapter 90</td>
</tr>
