

GOVERNMENT OF THE RUSSIAN FEDERATION
dated March 9, 2022 No. 312, MOSCOW

On the introduction on a temporary basis of a permissive procedure for export certain types of goods outside the territory Russian Federation

In pursuance of subparagraph "b" of paragraph 1 of the Decree of the President of the Russian Federation of March 8, 2022 No. 100 "On the application in order to ensure security of the Russian Federation special economic measures in the field of foreign economic activity" the Government of the Russian Federation decides:

1. Install until December 31, 2022 inclusive permit procedure for export outside the territory of the Russian Federation on the territory of the member states of the Eurasian Economic Union, The Republic of Abkhazia and the Republic of South Ossetia of certain types agricultural machinery and parts to it according to the list according to Appendix No. 1, certain types of vehicles, their parts and components according to the list in accordance with Appendix No. 2, certain types industrial products according to the list in accordance with Appendix No. 3, certain types of telecommunications equipment, parts and materials according to the list in accordance with Appendix No. 4 and certain types laboratory, mining, exploration, geophysical equipment and parts to it according to the list in accordance with Appendix No. 5 (hereinafter - the permissive procedure).

2. The measure provided for in paragraph 1 of this decision, does not apply:

- for goods originating from the territory of the Russian Federation, accompanied by a certificate of origin in the form ST-1;
- for goods exported from the territory of the Russian Federation in the framework of international transit traffic starting and ending outside the territory of the Russian Federation;
- on goods transported between parts of the territory of the Russian Federations through the territories of foreign states;
- on goods exported from the territory of the Russian Federation for the purpose of ensuring the activities of military formations of the Russian Federations located on the territories of foreign states;
- for goods exported under licenses of the Federal Service on technical and export control, on licenses and lists Federal Service for Military-Technical Cooperation, according to the lists approved by the Ministry of Defense of the Russian Federations; on goods (regardless of their origin) exported to the Donetsk People's Republic and the Lugansk People's Republic;
- on goods exported from the territory of the Russian Federation for the purpose of ensuring the activities of organizations of the Russian Federation, located in Baikonur (Republic of Kazakhstan) and on the territory complex "Baikonur";
- on vehicles of international transportation;
- on goods exported by individuals for personal use.

3. Permissive procedure for the export of certain species agricultural machinery and parts to it, included in Annex No. 1 to this resolution, is implemented through issued by the Ministry of Agriculture of the Russian Federation export permits.

Permissive procedure for the export of certain types of vehicles means, their parts and components included in Appendix No. 2 to this resolution, is implemented through the issuance of Ministry of Transport of the Russian Federation export permits.

Permissive procedure for the export of certain types of industrial products included in Appendix No. 3 to this Decree, implemented through the issuance by the Ministry of Industry and trade of the Russian Federation export permits. Permissive procedure for the export of certain species

telecommunications equipment, parts and materials included in Annex No. 4 to this resolution, is implemented through issuance by the Ministry of Digital Development, Communications and Mass communications of the Russian Federation export permits.

Permissive procedure for the export of certain types of laboratory, mining, exploration, geophysical equipment and parts to it, included in Appendix No. 5 to this resolution, implemented through the issuance by the Ministry of Natural Resources and ecology of the Russian Federation export permits.

4. To the federal executive authorities indicated in paragraph 3 of this resolution, within 3 days to approve procedures for issuing appropriate export permits and ensure issuance of such permits to participants in foreign economic activities.

5. To the Ministry of Economic Development of the Russian Federation notify the Eurasian Economic Commission on the introduction of the licensing procedure.

6. This Resolution shall enter into force on the day of its official publication.

APPENDIX No. 1

Certain types of agricultural machinery and parts to it, for which, on a temporary basis, there is an export permit procedure

4416 00 00	Barrels, barrels, vats, tubs and other cooperage products and parts thereof, of wood, including riveting
7309 00	Reservoirs, tanks, vats and similar containers, of ferrous metals, for any substances (except compressed or liquefied gas) with a capacity of more than 300 liters, lined with or thermal insulation or without them, but without mechanical or heating equipment
7310 10 00	Tanks, barrels, drums, canisters, boxes and similar containers, of ferrous metals, for any substances (except compressed or liquefied gas) with a capacity not exceeding 300 litres, lined or with or without thermal insulation, but without mechanical or heating equipment with a capacity of 50 litres or more
8421 11 00	Milk separators
8421 22 00	Filtering or purifying machinery and apparatus drinks other than water
8422 20 00 9	Machinery for washing or drying bottles or other other containers
8422 30 000 8	Equipment for filling, closing bottles, cans, closing boxes, bags or other containers, for their sealing or labelling; equipment for hermetic sealing with caps or bottle caps, cans, tubes and similar containers; equipment for other carbonated beverages
8427	Fork lift trucks; other carts, equipped with a lifting or handling equipment
8428 90 71	Loaders specially designed for use in agriculture
8428 90 78	
8432	Agricultural, horticultural or forestry for soil preparation and cultivation; lawn or sports field rollers
8433	Harvesting or threshing machinery agricultural crops, including balers, straw balers or hay; mowers or lawn mowers; machines for cleaning, sorting or grading eggs, fruit or other agricultural products other than machinery heading 8437
8434	Milking plants and apparatus, milking equipment milk processing and processing
8435	Presses, crushers and similar machinery for winemaking, cider, fruit juice or similar drinks
8436	Equipment for agriculture, horticulture, forestry, poultry or beekeeping, including equipment for germinating seeds with mechanical or heating devices, other; poultry incubators and brooders
8437	Machinery for cleaning, sorting or grading seed, grains or dry legumes; equipment for flour milling industry or processing cereals or dry leguminous vegetables, other than equipment, used on agricultural farms
8438	Equipment for industrial preparation or production of foodstuffs or beverages, in another place of this group is not named or not included, other than extraction equipment or cooking animal fats or oils origin or non-volatile fats or oils vegetable or microbiological origin
8474 20 00	Grinding or grinding machines
8514 19 10	Bakery and confectionery ovens
8701	Tractors (other than tractors of heading 8709)
9027 50 00	Instruments and apparatus based on action optical radiation (ultraviolet, visible part of the spectrum, infrared), other

APPENDIX No. 2

Certain types of vehicles, their parts and components, for which, on a temporary basis, there is export permit procedure

8208	Knives and cutting blades for machinery or mechanical fixtures
8408 90	Other engines
8409 10 00	Parts for aircraft engines
8411	Turbojet and turboprop engines, gas other turbines
8412	Other engines and power plants
8801 00	Balloons and airships; gliders, hang gliders and others non-powered aircraft
8802	Other aircraft (for example, helicopters, aircraft), except for unmanned aerial vehicles heading 8806; spacecraft (including satellites) and suborbital and space launch vehicles
8804 00 00	Parachutes (including guided parachutes and paragliders) and rotochutes; their parts and accessories
8805	Aircraft launch equipment; deck braking or similar devices; ground flight simulators; their parts
8806	Unmanned aerial vehicles
8807 10 00	Propellers and rotors and parts thereof
8807 20 00	Chassis and parts thereof
8807 30 00	Other parts of airplanes, helicopters or unmanned aerial vehicles aircraft
8901	Cruise ships, excursion ships, ferries, cargo ships, barges and similar vessels for the carriage passengers or cargo
8902 00	Fishing boats; floating bases and other vessels for processing and preservation of fish products
8903	Yachts and other craft for recreation or sport; rowboats and canoes
8904 00	Tugs and pushers
8905	Lightships, fireboats, dredgers, floating cranes and other floating craft for which navigable qualities are secondary to compared to their main function; floating docks; floating or submerged drilling rigs or operational platforms
8906	Other ships, including warships and salvage ships other than rowing boats
8907	Other floating structures (e.g. rafts, floating tanks, caissons, landing stages, buoys and buoys)
8908 00 00	Ships and other floating structures intended for scrapped

APPENDIX No. 3

Certain types of industrial products for which on a temporary basis, a permissive procedure for the export is introduced

3815 19 90	Reaction initiators, reaction accelerators and catalysts, not elsewhere specified or not included
6804 22	Millstones, grindstones, grinding wheels and similar products without supporting structures, for grinding, sharpening, polishing, trimming or cutting, stones for hand sharpening or polishes and parts thereof, of natural stone, of agglomerated natural or artificial abrasives or ceramics, complete with parts made of other materials or without these parts
7017	Glassware for laboratory, hygienic or pharmaceutical purposes, graduated or uncalibrated, calibrated or uncalibrated
7311 00	Containers for compressed or liquefied gas, black metals
8205	Hand tools (including diamond glass cutters), not elsewhere specified or included; (except soldering lamps; vices, clamps and similar products other than accessories and parts of
8205 59)	machine tools or water jet cutting machines; anvils; forges portable; grinding wheels with support designs, with manual or foot drive
8207	Interchangeable working tools for manual tools, with or without mechanical drive or for
(except	machine tools (for example, for pressing, punching, punching, threading, drilling, boring,
8207 19)	broaching, milling, turning machining or screwdriving), including dies for metal drawing or extruding tools for drilling in rock or soil
8209 00	Plates, bars, points and the like tool articles not mounted on them, cermet
8401	Nuclear reactors; fuel elements (fuel elements), non-irradiated, for nuclear reactors; equipment and devices for isotope separation
8402	Steam boilers or other steam generating boilers (except water boilers for central heating, also able to produce low pressure steam); superheated water boilers
8403	Boilers for central heating, other than commercial boilers items 8402
8404	Accessories for use with boilers of heading 8402 or 8403 (for example, economizers, superheaters, soot removers, gas recuperators); capacitors for steam or other steam power plants
8405	Gas generators or water gas generators with cleaning plants or without them; acetylene
(except	and similar gas generators gas generators with purification plants or without them
8405 10 00)	
8406	Steam turbines and other steam turbines
8407	Internal combustion engines with spark ignition, rotary or reciprocating piston
8408	Reciprocating internal combustion engines with compression ignition (diesels or semi-diesels)
8409	Parts intended solely or principally as for engines of heading 8407 or 8408
8410	Hydraulic turbines, water wheels and regulators for them.
8411	Turbojet and turboprop engines, gas other turbines
8412	Other engines and power plants
(except 8412 29)	

8413	Pumps for liquids, with or without flow meters; liquid lifters:
8414	Air or vacuum pumps, air or gas compressors and fans; ventilation or recirculating fume hoods or cabinets with fan, with or without filters; gas-tight biological cabinets security with or without filters
8415	Air conditioning units, equipped with a motorized fan and devices for changing temperature and humidity air, including air conditioners, in which the humidity cannot be adjusted separately
8416	Furnace burners for liquid fuel, atomized solid fuel or for gas; mechanical furnaces, including their mechanical grates, mechanical ash removers and similar devices
8417	Industrial or laboratory furnaces and furnaces, including incinerators, non-electric
8418	Refrigerators, freezers and other refrigeration or freezing equipment, electric or other types; heat pumps, except for installations for air conditioning of heading 8415
8419	Machinery, industrial equipment or laboratory with electric or non-electric (
(except	by heating (excluding ovens, chambers and other equipment of heading 8514) for
8419 40 00)	processing materials in the process with temperature change, such as heating, boiling, roasting, distilling, rectification, sterilization, pasteurization, steaming, drying, evaporating, condensing or refrigeration, except for machines and equipment used for domestic purposes; flow or storage water heaters (capacitive), non-electric
8420	Calenders or other roller machines other than machines for working metal or glass, and rolls for them
8421	Centrifuges, including centrifugal dryers; equipment and devices for filtering or
(except	purification of liquids or gases
8421 11 00,	
8421 21 00,	
8421 22 00	
8421 29 00)	
8422	Dishwashers; washing equipment or drying bottles or other containers; equipment
(except	for filling, capping bottles, jars, closing boxes, bags or other containers for their sealing
8422 20 00	or labelling; equipment for hermetic sealing with caps or lids bottles, jars, tubes and 8421
30 00 08)	similar containers; packing or wrapping machinery (including shrink wrapping
	equipment packaging material) other; equipment for carbonated beverages:
8423	Weighing equipment (other than scales sensitivity of 0.05 g or better), including counters or control machines powered by gravity of the weighed load; weights for scales of all types
8424	Mechanical devices (hand operated or without it) for throwing, splashing or spraying liquids or powders; fire extinguishers charged or uncharged; spray guns and similar devices; steam blasting or sandblasting and similar throwing devices
8425	Hoists and hoists other than skips lifts; winches and capstans; jacks
8426	Ship derrick cranes; cranes, including cable cranes; lifting trusses, straddle carriers and trolleys equipped with crane
8428	Machines and devices for lifting, moving, loading or unloading (e.g. elevators,
(except	escalators, conveyors, ropeways) other
8428 90 71	
8428 90 78)	
8429	Bulldozers with a fixed or rotary blade, graders, planners, scrapers, mechanical shovels, excavators, shovel loaders, rammers and road rollers, self-propelled

8430	Other machines and mechanisms for moving, planning, profiling, development,
(except	ramming, compacting, excavating or drilling soil, minerals or ores; equipment for
8430 10 00	driving and extracting piles; snow plows and rotary
8430 31 00	
8430 39 00	
8430 41 00	
8430 49 00)	
8439	Equipment for the production of pulp from fibrous cellulosic materials or for the manufacture or finishing paper or cardboard
8440	Binding machinery, including machines for book block stitching
8441	Equipment for the production of paper products pulp, paper or paperboard, including cutting machines of all types, other
8442	Machinery, apparatus and fittings (except equipment headings 8456 to 8465) for the preparation or manufacture of plates, cylinders or other printed forms; plates, cylinders and other printing forms; plates, cylinders and lithographic stones, prepared for printing purposes (for example, turned, ground or polished)
8443	Printing machines used for printing through plates, cylinders and other printed forms of heading 8442; other printers, copiers and fax machines, incorporated or uncombined; their parts and accessories
8444 00	Machines for extruding, drawing, texturing or cutting chemical textile materials
8445	Machines for preparing textile fibres; spinning, cane or twisting machines and other equipment for the manufacture of textile yarn; cocoon winding or winding (including weft-winding) textile machines and machines, preparing textile yarn for its use on machines of heading 8446 or 8447
8446	Looms
8447	Knitting machines, knitting machines, for gimp thread, tulle, lace, embroidery, braiding or netting and tufting cars
8448	Ancillary equipment for use with machines of heading 8444, 8445, 8446 or 8447 (e.g. dobbies, jacquard machines, automatic stop mechanisms, shuttle change mechanisms); parts and accessories, intended solely or primarily for machines of this heading or heading items 8444, 8445, 8446 or 8447 (e.g. spindles and flyers, needle headset, combs, dies, shuttles, shafts and shafts, knitted needles)
8449 00 00	Equipment for the production or finishing of felt or felt or non-woven fabrics in the piece or cut, including equipment for the production of felt hats; blocks for making hats
8450	Washing machines, household or laundry, including machines equipped with wringer
8451	Equipment (other than machines of heading 8450) for washing, cleaning, wringing, drying, ironing, pressing (including presses for thermosetting materials), bleaching, dyeing, dressing, finishing, coating or impregnating textile yarn, textile materials or finished textiles and application machines pastes on a woven or other basis, used in production of floor coverings such as linoleum; machines for winding, unwinding, folding, cutting or piercing textile materials
8452	Sewing machines, other than staplers book blocks of heading 8440; furniture, bases and cases designed specifically for sewing machines; sewing machine needles
8453	Equipment for preparation, tanning or working hides or skins, or for making or repairing shoes or other articles of hides or skins, other than sewing machines
8454	Converters, ladles, moulds and machines foundries used in metallurgy or foundry production

- 8455 Rolling mills and rolls therefor
- 8456 Machine tools for working all materials by removal of material using a laser or other light or photon beam, ultrasonic, electric discharge, electrochemical, electron beam, ion-beam or plasma-arc processes; water jet cutting machines
- 8457 Machining centres, machine tools single-station and multi-station, for processing metal
- 8458 Lathes (including lathes multi-purpose) metal-cutting
- 8459 Metal-cutting machine tools (including modular machine tools linear construction) for drilling, boring, milling, cutting external or internal threads by removing metal, except for turning machine tools (including lathes) heading 8458
- 8460 Peeling and grinding machines, sharpening, grinding, honing, lapping, polishing and for other operations finishing of metals or cermets with using grinding stones, abrasives or polishing agents, other than gear cutters, gear grinding or gear finishing machines heading 8461
- 8461 Longitudinal planers, cross planers, slotters, broaches, gear cutters, gear grinding or gear finishing, sawing, cutting and other machine tools for working metals or cermets by removing material, in elsewhere not named or included
- 8462 Machine tools (including presses) for working metals die forging, forging or stamping (other than rolling mills); metal processing machines (including presses, slitting lines and transverse cutting) bending, edge bending, straightening, cutting, punching, notching or die-cutting (except for drawing machines); presses for working of metals or metal carbides, not named above
- 8463 Machine tools for working metals or cermets without removal of material other
- 8464 Machine tools for working stone, ceramics, concrete, asbestos cement or similar mineral materials or for cold working glass
- 8465 Machine tools (including machines for assembling with nails, staples, glue or other means) to woodworking, cork, bone, hard rubber, hard plastics or similar hard materials
- 8466 Parts and accessories intended exclusively or mainly for equipment headings 8456-8465, including tool holder or parts, self-expanding thread-cutting heads, dividing heads and other special accessories for equipment; fixtures for fastening of working tools for all types hand tools
- 8467 Pneumatic, hydraulic hand tools or with built-in electrical or non-electric motor
- 8468 Equipment and apparatus for low temperature soldering, brazing or welding, suitable or unsuitable for cutting, other than by machines and apparatus of heading 8515; machines and devices for surface heat treatment, gas powered
- 8470 Calculating machines and pocket recorders, playback and visual presentation of data with computing functions; accounting machines, postal marking machines, devices ticket and other similar machines with counting devices; cash registers
- 8471 Computers and their units; magnetic or optical readers, machines for transferring data to storage media in coded form and processing machine similar information, elsewhere named or not included
- 8472 Office equipment (for example, hectographic or stencil multipliers devices, addressing machines, automatic banknote dispensers, machines for sorting, counting or packing coins, machines for sharpening pencils, punching machines or staplers) other
- 8473 Parts and accessories (except cases, covers for transportation and similar products), intended solely or primarily for machines of headings 8470 - 8472
- 8474 Equipment for sorting, screening, separation, washing, grinding, grinding, or mixing of (except soil, stone, ores or other minerals in solid (including powder or paste) state; equipment

8474 10 00	for agglomeration, moulding or casting solid mineral fuels, ceramic compounds,
8474 20 00	unhardened cement, gypsum materials or other mineral products in powdered or pasty
8474 31 00	state; moulding machines for the manufacture of foundry sand moulds
8474 32 00	
8474 39 00)	
8475	Electrical or electronic assembly machines lamps, tubes or cathode ray tubes or gas-discharge lamps in glass flasks; machines for manufacture or hot working of glass or glass products
8476	Vending machines (e.g. for selling postal brands, cigarettes, food products or beverages), including vending machines for banknotes and coins
8477	Equipment for working rubber or plastics or for the production of products from these materials, in elsewhere in this group, not named or included
8478	Preparation or preparation equipment tobacco, not elsewhere in this group named or not included
8479	Machinery and mechanical devices having individual functions, elsewhere in this groups not named or included
8480	Moulds for foundries; foundry pallets; foundry models; metal casting moulds (except moulds), metal carbides, glass, mineral materials, rubber or plastics
8481	Taps, valves, faucets and similar fittings for pipelines, boilers, reservoirs, cisterns, tanks or similar containers, including reducing and thermostatic valves
8482	Ball or roller bearings
8483	Transmission shafts (including cam and cranked) and cranks; bearing housings and plain bearings for shafts; gears and gears; ball or roller screw gears; gearboxes and others speed variators, including torque converters; flywheels and pulleys, including pulley blocks; couplings and shaft coupling devices (including universal joints)
8484	Gaskets and similar fittings sheet metal combined with other material or consisting of two or more layers of metal; sets or sets of gaskets and similar connecting elements, different in composition, packed in bags, envelopes or similar packaging; mechanical seals
8485	Additive manufacturing machines
8486	Machinery and apparatus used exclusively or mainly for the production of semiconductor boules or plates, semiconductor devices, electronic integrated circuits or flat display panels; machines and equipment, named in Note 11(B) to this Chapter; parts and accessories
8487	Parts of equipment not fitted with electrical connections, insulators, contacts, coils or other electrical parts, elsewhere in this groups not named or included
8501	Electric motors and generators (other than generating sets)
8502	Electric generating sets and rotating electrical converters
8503 00	Parts intended exclusively for or in mainly for machines of heading 8501 or 8502
8504	Electric transformers, static electrical converters (for example, rectifiers), inductors and chokes
8505	Electromagnets; permanent magnets and products, destined to become permanent magnets after magnetization; electromagnetic or permanent magnet chucks, grippers and similar fixing devices; electromagnetic clutches, clutches and brakes; electromagnetic lifting heads
8506	Primary cells and primary batteries
8507	Electric accumulators, including separators for them, rectangular (including square) or other forms

- 8508 Vacuum cleaners
- 8509 Household electromechanical machines with built-in electric motor, except commercial vacuum cleaners items 8508
- 8510 Shavers, hair clippers and hair removal devices with built-in electric motor
- 8511 Ignition or starting electrical equipment internal combustion engines with spark ignition or compression ignition (e.g. magnetos, ignition coils, spark plugs ignition, glow plugs, starters); generators (for example, direct or alternating current) and breakers of the type used in conjunction with such engines
- 8512 Electrical lighting or signalling (except for products of heading 8539), windshield wipers, defrosters and defoggers used on bicycles or motor vehicles
- 8513 Portable electric lamps powered by own energy source (e.g. batteries dry cells, accumulators, magnetos), except lighting equipment of heading 8512
- 8515 Machinery and apparatus for electrical (including electric gas heating), laser or other light or photon, ultrasonic, electron beam, magnetic-pulse or plasma-arc low temperature soldering, high temperature soldering or welding, whether they can perform cutting operations or not; machines and electrical apparatus for hot spraying metals or cermets
- 8516 Instantaneous electric water heaters or storage (capacitive) and electric heaters submersible; electrical heating equipment space and ground heating, electrothermal hair care appliances (e.g. dryers for hair, curlers, curling irons) and hand dryers; electric irons; other household electric heaters; electrical heating resistors other than those specified in heading 8545
- 8518 Microphones and stands therefor; loudspeakers, mounted or not mounted in housings; headphones and telephones headphone, combined or not combined with a microphone, and kits consisting from a microphone and one or more speakers; electric amplifiers of sound frequency; electric sound amplification kits
- 8519 Sound recording apparatus or sound-reproducing
- 8521 Video recording apparatus or video playback, combined or not combined with video tuner
- 8522 Parts and accessories suitable for use exclusively or mainly with apparatus heading 8519 or 8521
- 8524 Flat panel display modules, also with touch screen
- 8530 Electrical devices for signalling, providing security or traffic control for railway roads, tram lines, highways, inland waterways, parking facilities, ports or airfields (except equipment for commercial items 8608)
- 8531 Sound or visual electrical equipment signalling (for example, calls, sirens, indicator panels, signalling devices security or fire fighting devices signal), other than equipment of heading 8512 or 8530
- 8532 Electric capacitors, permanent, variable or tuning
- 8533 Electrical resistors (including rheostats and potentiometers), except for heating elements
- 8535 Electrical apparatus for switching or protection of electrical circuits or for connections to electrical circuits or in electrical circuits (e.g. switches, switches, breakers, fuses, lightning rods, voltage limiters, surge suppressors voltages, current collectors, current collectors and other connectors, junction boxes) for voltage over 1000 V
- 8536 Electrical apparatus for switching or protection of electrical circuits or for connections to electrical circuits or in electrical circuits (e.g. switches, switches, breakers, relays, fuses, extinguishers power surges, plugs and sockets, lamp sockets and other connectors, junction boxes) for voltage not more than 1000V; connectors for optical fibres, fibre optic bundles or cables

- 8537 Consoles, panels, consoles, tables, distribution shields and bases for electrical equipment other, equipped with two or more devices heading 8535 or 8536, for the administration or distribution of electric current, including devices or devices of the group 90 and digital control devices, except switching devices of heading 8517
- 8538 Parts intended solely for or in mainly for apparatus of heading 8535, 8536 or 8537
- 8539 Incandescent or discharge lamps, electric, including sealed directional light lamps, and also ultraviolet or infrared lamps; arc lamps; light-emitting diode (LED) light sources
- 8540 Lamps and electronic tubes with thermionic cathode, cold cathode or photocathode (for example, vacuum or vapor or gas-filled lamps and tubes, mercury arc rectifying lamps and tubes and cathode ray tubes, television transmission tubes)
- 8545 Carbon electrodes, carbon brushes, carbons for lamps or batteries and articles of graphite or other types carbon with or without metal, other, used in electrical engineering
- 8546 Electrical insulators of any material
- 8547 Insulating fittings for electrical machines, devices or equipment manufactured entirely of insulating materials, not counting some metal components (e.g. threaded cartridges) mounted during moulding solely for the purpose of assembly, except for insulators heading 8546; pipes for electrical wiring and connecting parts for them, of non-precious metal lined with insulating material
- 8548 00 Parts of electrical equipment or apparatus, in elsewhere in this group, not named or included
- 8549 Electrical and electronic waste and scrap products

- 8601 Railway locomotives, powered by an external source of electricity, or rechargeable
- 8602 Other railway locomotives; locomotive tenders
- 8603 Motorized railway or tram cars passenger, goods or baggage, open platforms other than those of heading 8604
- 8604 00 00 Self-propelled vehicles or non-self-propelled, intended for repair or maintenance of railway or tram tracks (for example, workshop cars, cranes, sleeper tamping machines machines, control and measuring cars and path inspection vehicles)
- 8605 00 00 Railway or tram cars, passenger non-self-propelled; baggage wagons, postal and other special railway or trams, non-self-propelled (except for those included in heading 8604)
- 8606 Railway or tramway wagons, freight non-self-propelled
- 8607 Parts of railway or motor locomotives tramcars or rolling stock
- 8608 00 00 Track equipment and devices for railway or tram tracks; mechanical (including electromechanical) signalling equipment, support devices security or traffic control on railway roads, tramways, highways, inland waterways, parking facilities, ports or airfields; parts of said devices and equipment
- 8609 00 Containers (including receptacles for the carriage liquids or gases), specially designed and equipped to carry one or more modes of transport
- 8702 Motor vehicles intended for the transport of 10 people or more, including the driver
- 8703 Cars and other motor vehicles intended for manner for the transport of people (except for motor vehicles of heading 8702), including utility vans and racing cars
- 8704 Motor vehicles for transportation cargo
- 8705 Motor vehicles of special destination (for example, trucks emergency, truck cranes, fire trucks products, concrete mixer trucks, cleaning vehicles roads, watering vehicles, car repair shops, vehicles with X-ray units), except used to transport passengers or goods
- 8706 00 Chassis with installed engines for motor vehicles of headings 8701 - 8705
- 8707 Bodies (including cabs) for motor vehicles headings 8701 - 8705

8708	Motor vehicle parts and accessories headings 8701 - 8705
8709	Industrial vehicles, self-propelled, not equipped with lifting or loading devices used in factories, warehouses, ports or airports for the transport of goods for short distances; tractors used in railway station platforms; parts the above vehicles
8711	Motorcycles (including mopeds) and bicycles with installed auxiliary engine, with wheelchairs or without them; strollers
8712 00	Bicycles and other bicycles (including tricycles for delivery cargo) without engine
8713	Wheelchairs for disabled people whether or not equipped with an engine or other mechanical devices for movement
8714	Vehicle parts and accessories headings 8711 - 8713
8715 00	Baby carriages and parts thereof
8716	Trailers and semi-trailers; other non-self-propelled vehicles; their parts
8807	Parts of aircraft of heading 8801, 8802, 8806
(except

8807 30 00)	
9002	Lenses, prisms, mirrors and other optical elements, of any material, assembled, which are parts of tools and appliances or devices for them, except for such elements from optically untreated glass
9003	Frames and fittings for spectacles, goggles or similar optical instruments and parts thereof
9004	Spectacles, goggles and similar optical devices, corrective, protective or other
9005	Binoculars, monoculars, other spotting scopes and their fittings; other astronomical instruments and their fittings other than radio astronomy instruments
9006	Photographic cameras (other than motion picture cameras); flashes and flash lamps other than gas discharge lamps items 8539
9007	Motion picture cameras and projectors, whether or not containing sound recordings or sound-reproducing devices
9008	Image projectors other than cinematographic; photographic enlargers and projection equipment reduced images (except cinematic)
9010	Apparatus and equipment for photographic laboratories (including film laboratories), elsewhere in this groups not named or included; negatoscopes; projection screens
9011	Compound optical microscopes, including microscopes for microphotography, microcinigraphy or micro projection
9012	Microscopes other than optical microscopes; diffraction apparatuses
9014	Directional compasses; other navigational aids and instruments
9015	Surveying appliances and instruments or topographic (including photogrammetric), hydrographic, oceanographic, hydrological, meteorological or geophysical, except for compasses; rangefinders
9016 00	Balances of 0.05 g sensitivity or better, with weights or without them
9017	Drawing, marking or mathematical calculations (for example, drawing machines, pantographs, protractors, drawing sets, slide rules, disk calculators); hand tools for measuring linear dimensions (for example, measuring rods and tape measures, micrometers, calipers), in elsewhere in this group, not named or included

- 9018 Instruments and devices used in medicine, surgery, dentistry or veterinary medicine, including scintigraphic equipment, equipment other electromedical and devices for vision research
- 9019 Mechanotherapy devices; massage apparatus; equipment for psychological tests for ability definitions; ozone equipment, oxygen and aerosol therapy, artificial breathing or other therapeutic respiratory equipment
- 9020 00 00 Other respiratory equipment and gas masks, except for protective masks without mechanical parts and replacement filters
- 9021 Orthopedic appliances, including crutches, surgical belts and bandages; tires and others devices for the treatment of fractures; body parts artificial; hearing aids and others devices that are worn on oneself, with oneself or implanted in the body to compensate for the defect body or its inoperability
- 9022 Apparatus based on use x-ray, alpha, beta, gamma or other ionizing radiation, intended or not intended for medical, surgical, dental or veterinary use, including radiographic equipment or radiotherapy, x-ray tubes and other x-ray generators, generators high voltage, boards and control panels, screens, tables, chairs and similar articles for examination or treatment
- 9023 00 Instruments, apparatus and models intended for demonstration purposes (for example, in training or exposure) not suitable for another use
- 9024 Hardness testing machines and apparatus, strength, compression, elasticity or other mechanical properties of materials (e.g. metals, wood, textiles, paper, plastics)
- 9025 Hydrometers and similar instruments for immersion in liquid, thermometers, pyrometers, barometers, hygrometers and psychrometers, with recorder or no recorder devices, and any combination of these devices
- 9026 Instruments and apparatus for measuring or checking flow, level, pressure or other variables characteristics of liquids or gases (for example, flow meters, level indicators, manometers, heat meters), except for devices and equipment of commercial items 9014, 9015, 9028 or 9032
- 9027
(except
9027 50 00) Devices and equipment for physical or chemical analysis (e.g. polarimeters, refractometers, spectrometers, gas or smoke analysers); devices and equipment for measurement or control of viscosity, porosity, expansion, surface tension or similar; instruments and apparatus for measuring or controlling the amount of heat, sound or light (including exposure meters); microtomes
- 9028 Meters for the supply or production of gas, liquid or electricity, including calibrating
- 9029 Revolution counters, quantity counters products, taximeters, counters miles, pedometers and similar appliances; speedometers and tachometers, except instruments and instruments of heading 9014 or 9015; stroboscopes
- 9030 Oscilloscopes, spectrum analysers, other instruments and apparatus for measuring or controlling electrical quantities, except for measuring appliances of heading 9028; appliances and apparatus for detecting or measuring alpha, beta, gamma, x-ray, cosmic or other ionizing radiation
- 9031 Measuring or control instruments, devices and machines, not elsewhere in this group named or not included; projectors profile
- 9032 Instruments and apparatus for automatic regulation or management
- 9033 00 00 Parts and accessories (elsewhere in this groups not named or included) to machines, appliances, instruments or apparatus groups 90

APPENDIX No. 4

Certain types of telecommunications equipment, parts and materials in respect of which, on a temporary basis, export permit procedure

- 8517 Telephone sets, including telephone sets for cellular networks or other wireless networks communications; other equipment for transmitting or receiving voice, images or other data, including equipment for communication over a wired or wireless network (for example, in a local or wide area communication network), except transmitting or receiving apparatus of heading 8443, 8525, 8527 or 8528
- 8523 Disks, tapes, solid state non-volatile storage devices, "intelligent cards" and other media for recording sound or other phenomena, recorded or unrecorded, including matrices and master disks for the manufacture of disks, except products group 37
- 8525 Transmitting apparatus for radio broadcasting or television, including or not including in its composition of the reception, sound recording or sound reproducing equipment; television cameras, digital cameras and camcorders
- 8526 Radar, radio navigation and remote control radio equipment
- 8527 Radio broadcast reception apparatus, combined or not combined in one housing with sound recording or reproducing equipment or watch
- 8528 Monitors and projectors not including receiving television equipment; equipment reception for television communications, including or not including broadcast radio receiver or apparatus for recording or reproducing sound or image
- 8529 Parts designed exclusively or primarily for for apparatus of headings 8524 - 8528
- 8534 00 Printed diagrams
- 8541 Semiconductor devices (e.g. diodes, transistors, converters based on semiconductors); photosensitive semiconductor devices, including photovoltaic cells, assembled or not assembled in modules, mounted or not mounted in panels; light-emitting diodes (LED), assembled or not assembled with other light-emitting diodes (LED); piezoelectric crystals assemblies
- 8542 Electronic integrated circuits
- 8543 Electrical machines and apparatus having individual functions, elsewhere in this group not named or included
- 8544 Insulated wires (including enamelled or anodized), cables (including coaxial cables) and other insulated electrical conductors with connecting devices or without them; cables fibre optic, made up of fibres with individual shells, regardless of whether or not they are assembled with electrical conductors or connecting devices
- 9001 Optical fibres and optical fibre bundles; fibre optic cables, other than those specified in heading 8544; sheets and plates polarizing material; lenses (including contact), prisms, mirrors and other optical elements, of any material, unframed, other than such elements made of optically untreated glass
- 9013 Lasers other than laser diodes; appliances and tools optical, other, not elsewhere in this Chapter named or not included

APPENDIX No. 5

Certain types of laboratory, mining, exploration, geophysical equipment and parts to it, in respect of which on a temporary basis, a permissive procedure for the export is introduced

3006 10	pharmaceutical products; surgical catgut sterile
3006 40 00	
3006 70 00	
7304 23 00	Other conventional drill pipes
8205 59	Tools for drilling equipment: tools for removing the aperture of the telemetry system
8207 19	Equipment for oilfield, drilling, geological exploration: calibrators for drilling oil and gas wells types KL, KLS
8405 10 00	Gas generators or water gas generators with cleaning plants or without them; acetylene and similar gas generators gas generators with or without purification plants them; for civil aircraft
8412 29	Drilling equipment used for work in oil and gas industry (hydraulic power plant for pumping drilling mud into drill rods)
8419 40 00	Machinery, industrial or laboratory with electric or non-electric heating to process materials in the process with temperature changes such as heating, boiling, roasting, distillation, rectification, sterilization, pasteurization, steaming, drying, evaporation, condensing or cooling, except machinery and equipment used in domestic purposes; flow or storage water heaters (capacitive), non-electric; for medical industry
8421 21 00	Centrifuges, including centrifugal dryers; equipment and devices for filtering or purification of liquids or gases; for filtering or water purification
8421 22 00	Centrifuges, including centrifugal dryers; equipment and devices for filtering or purification of liquids or gases; for filtering or cleaning drinks other than water
8421 29 00	Centrifuges, including centrifugal dryers; equipment and devices for filtering or purification of liquids or gases; other
8430 10 00	Equipment for driving and extracting piles; self-propelled, other, drilling equipment
8430 31 00	
8430 39 00	
8430 41 00	
8430 49 00	
8431	Grasping and hanging equipment drill pipe strings when drilling oil and gas wells
8474 10 00	Equipment for sorting, screening, separating, washing, grinding, grinding, mixing or mixing of soil, stone, ores or other minerals in solid (including powder or paste) state; equipment for agglomeration, moulding or casting solid mineral fuels, ceramic compounds, unhardened cement, gypsum materials or other mineral products in powdered or pasty state; moulding machines for the manufacture of foundry sand moulds; machines for sorting, screening, separation or washing
8474 20 00	Equipment for sorting, screening, separating, washing, grinding, grinding, mixing or mixing of soil, stone, ores or other minerals in solid (including powder or paste) state; equipment for agglomeration, moulding or casting solid mineral fuels, ceramic compounds, unhardened cement, gypsum materials or other mineral products in powdered or pasty state; moulding machines for the manufacture of foundry sand moulds; crushing machines or grinding
8474 31 00	Equipment for sorting, screening, separating, washing, grinding, grinding, mixing or mixing of soil, stone, ores or other minerals in solid (including powder or paste) state;

	equipment for agglomeration, moulding or casting solid mineral fuels, ceramic compounds, unhardened cement, gypsum materials or other mineral products in powdered or pasty state; moulding machines for the manufacture of foundry sand moulds; concrete mixers or mortar mixers
8474 32 00	Equipment for sorting, screening, separation, washing, grinding, grinding, mixing or mixing of soil, stone, ores or other minerals in solid (including powder or paste) state; equipment for agglomeration, moulding or casting solid mineral fuels, ceramic compounds, unhardened cement, gypsum materials or other mineral products in powdered or pasty state; moulding machines for the manufacture of foundry sand moulds; mineral mixing machines substances with bitumen
8474 39 00	Equipment for sorting, screening, separating, washing, grinding, grinding, mixing or mixing of soil, stone, ores or other minerals in solid (including powder or paste) state; equipment for agglomeration, moulding or casting solid mineral fuels, ceramic compounds, unhardened cement, gypsum materials or other mineral products in powdered or pasty state; moulding machines for the manufacture of foundry sand moulds; others
8481 80	Taps, valves, faucets and similar fittings for pipelines, boilers, reservoirs, cisterns, tanks or similar containers, including reducing and thermostatic valves; taps, valves and fittings for sinks, washbasins, bidets, water tanks, bathtubs and the like equipment
8514 (except	Furnaces and chambers industrial or laboratory electric (including those operating on the basis of phenomena of induction or dielectric losses); industrial 851419 10 or laboratory equipment for heat treatment of materials using phenomena of induction or dielectric losses
8526 91	Radar, radio navigation and remote control radio equipment; radio navigation equipment
8536 50	Switches for voltage not exceeding V used in seismic vibrator electromagnetic speed control pedal seismic vibrator electromagnetic sensor
9005 10	Binoculars, monoculars, other spotting scopes and their fittings; other astronomical instruments and their fittings, except for radio astronomical instruments; binoculars
9005 80	Binoculars, monoculars, other spotting scopes and their fittings; other astronomical instruments and their fittings, except for radio astronomical instruments; other appliances
9006 40	Instant cameras snapshot
9006 53	Cameras other
9006 59 000	
9011 10	Compound optical microscopes, including microscopes for microphotography, microcinigraphy or microprojections; furnished with equipment specially designed for handling and moving semiconductor wafers or photomasks
9011 20	Compound optical microscopes, including microscopes for microphotography, microcinigraphy or microprojections; microscopes for microphotographs provided with equipment, specially designed for handling and moving semiconductor wafers or photomasks
9011 80 00	Compound optical microscopes, including microscopes for microphotography, microcinigraphy or microprojections; other microscopes
9012 10	Microscopes other than optical microscopes; diffraction apparatuses; electron microscopes, equipped with special designed to manipulate and move semiconductor wafers or photomasks
9015	Surveying appliances and instruments or topographic (including photogrammetric), hydrographic, oceanographic, hydrological, meteorological or geophysical (seismic, seismoacoustic), other than compasses; rangefinders, etc.

9022 13 00	for use in dentistry, other
9022 14 00	for medical, surgical or veterinary use, other
9022 19 00	for other uses
9022 21 00	Apparatus for medical, surgical, dental or veterinary use
9022 29 00	for other uses
9022 30 00	X-ray tubes
9022 90 00	Other, including parts and accessories
9026 10	Electronic flow meters, for measuring or flow or level control of liquids.
9027 10	Devices and equipment for physical or chemical analysis (e.g. polarimeters, refractometers
9027 20 00	spectrometers, gas or smoke analysers); devices and equipment measurement or
9027 30 00	control of viscosity, porosity, expansion, surface tension or similar; instruments and
9027 50 00	apparatus for measuring or controlling the amount of heat, sound or light (including
9027 81 00	exposure meters); microtomes; electronic
9027 89 00	
9030 10 00	Instruments and apparatus for detecting or measurements of ionizing radiation; appliances and apparatus for detecting or measuring ionizing radiation
